

SHIPTools Pricing

SHIPTools is a web based management system designed for SHIPs by SHIPs. HAP collaborates with SHIP programs to determine the needs SHIPTools can meet and secures philanthropy to develop and implement the resulting functionality. SHIP programs pay a licensing fee to use SHIPTools which allows them access to all parts of the system. SHIPs then decide which parts of the system to use, based on the needs and wants of their programs.

The licensing fee for SHIPTools provides a program with access for an unlimited number of SHIP users for one year. It is based on a sliding-scale that corresponds to the amount of effort involved in site administration and maintenance, excluding any costs associated with administering and supporting the National Performance Reporting parts of SHIPTools. HAP secures philanthropy to cover development costs for SHIPTools and costs associated with National Performance Reporting so that SHIPTools can be offered to SHIPs at a considerably reduced rate. SHIPTools pricing is not based on access to functionality so that all users can choose whether to take advantage of new system improvements that are developed using foundation funding.

For more information on licensing, please contact HAP at SHIPHelp@HAPNetwork.org or 202.737.6340.

Number of Medicare Beneficiaries per State	0-100,000	100,001-500,000	500,001-1,000,000	1,000,001+
	-Level 1 Site Administration	-Level 2 Site Administration	-Level 3 Site Administration	-Level 4 Site Administration
