

A set of
capacity-building
training packages

Customized Training Packages

HAP's training packages are designed to help build the capacity of SHIP programs to better meet the needs of Medicare beneficiaries. They cover a range of timely issues, and can be easily customized to fit your program's individual needs.

Training topics include:

- Medicare Advantage
- Medicare Part D
- Original Medicare
- Volunteer Program Development

Benefits of Training Packages:

Flexible
in design

- Each training package can be customized by content and delivery to meet your training needs.

Exceptional
in value

- The packages blend interactive exercises with real-life SHIP case studies to provide participants with a hands-on training experience.

Affordable
in price

- The training packages are a good investment in building your SHIP's capacity and also come in an array of cost options to meet the budgetary and programmatic needs of each SHIP.

The training was a very positive experience in that it provided the opportunity for staff to share innovative experiences and challenges and to discuss various strategies to address issues.
